* *Katrina Barnes - apologies no time recorded or matched to an unrecognised time.*

1st Handicap - Dan Margolan 2 seconds within predicted time

2nd Handicap - Rachel Hall 3 seconds within predicted time

3rd Handicap - Kevin McCloskey 9 seconds within predicted time.

Booby prizes went to Katie Locke who changed her time but if she had kept with her original would have won the handicap by 1 second and the other to Steve Lomas who was way out if his predicted time but had fun supporting the Bentley crew.

A special thanks has to go to Emma Lord whom we overwhelmed at the finish by getting the handicap system almost perfect in the middle of the race.

A better finish system, more helpers at the finish and a funnel system will be required next year please.
