

Macclesfield Harriers Fell & Trail Running Club Champs Winners 1984-2022

Before 2019 there was a main race series, which consisted predominantly of local and Peak District races (Fell Running Trophy) and the summer series for races held during the week April-August. In 2019 the High Fell Series was introduced to include predominantly Lakeland races (or other 'big climb' non-Peaks races) to increase participation of more challenging unmarked fell races. The main race series morphed into the Peaks Trail Series in 2022, to include predominantly local marked races with less climb than HFS, but a few tough races still included. The summer series remains unchanged. Each series now has separate trophies awarded.

*The Ken Hall trophy actually goes back to 1984 as the men's fell running trophy, but in 2008 a new glass trophy was introduced that seems to have superseded it for the men's category.

The Ken Hall has since been an Open Handicap award for both male and female contenders. From 2021, following the move to three different fell and trail series, this has been reinterpreted to award the best competitor across all race series' taking account of age handicapping and needing to attend several races in each series to qualify.
